>> MINGLE: HPOG's new tag line, Building Pathways to a Brighter Future, is really meaningful

0:20

for me because we spend so much time working on building a career pathway system or process.

0:27

And this is so much more about a process. This tag line reminds me it's about people,

0:33

their families, and new hopes and dreams.

0:36

>> VASTINE: Building Pathways to a Brighter Future has meant that we were allowed to not

0:43

only have the privilege of having a HPOG grant, but we have been able to help our community

0:51

and our participants move towards greater self-sufficiency. We see individuals that

0:59

are realizing their dreams. They have the opportunity to go to school and have access

1:07

to tutoring, to tuition support, to transportation assistance, and those individuals then are

1:15

realizing their dreams.

1:17

>> BARNES: We're giving, sharing, embracing, encouraging an individual with the tools of

1:24

the program, the HPOG program, to advance in their healthcare career.

1:30

>> HALCSIK, UMLAND, MRAZ-HOFFMAN: HPOG. Building Pathways to a Brighter Future.

1:46

[music]

1:46

>> MRAZ-HOFFMAN: HPOG has dedicated staff who work with grant participants to maximize

1:51

their learning and progression up the nursing career ladder by addressing their barriers

1:56

to success so that they become lifelong learners and dedicated employees.

2:02

>> METCALF: Dedication first means that the students are dedicated to their learning path,

2:08

and it ensures their personal success in the program. And dedication for HPOG means that

2:15

we are committed to providing all the resources and the services to the students so that they

2:19

are successful.

2:24

[music]

2:28

>> LO: Our students are able to find employment in various medical positions and make an impact

2:39

on their own lives, their family lives, the community, and of course, the healthcare arenas.

2:45

>> HALCSIK: HPOG impacts not only our participants and their families, but the people they serve

2:53

and the communities they are employed in.

2:55

>> MENESES: You can successfully make a positive impact on you and your family through the

3:01

HPOG program.

3:05

[music]

3:10

>> RODRIGUEZ: Hope is an opportunity to help the community and help the students get back

3:20

on course, for whatever reason they may have gotten off course.

3:24

>> UMLAND: HPOG provides hope to both men and women who come from a low economic status

3:30

and are striving to provide a brighter future for both themselves and for their children.

3:36

It provides both the means and encouragement for them to be successful.

3:41

>> KARIM: We offer hope to students seeking to change careers and build a career to grow

3:47

on.

3:48

>> PRICHARD: Hope is something that our students focus on every day as they continue to work

3:52

so hard to change the lives for their children and for future generations. I can definitely

3:56

say in southeastern Ohio, thanks to HPOG, we have hope.

3:59
